

THE
**NATIONAL
CENTRE**

FOR THERAPEUTIC
**RESIDENTIAL
& FOSTER CARE**

The
Mulberry 
Bush Organisation

The Mulberry Bush Organisation and the National Centre are exploring:

Promoting the Emotional Health & Mental Wellbeing of Vulnerable Children and Families: a Reflective Space for public sector leaders.

Do you Chair a Health & Wellbeing Board?

Are you a Director of Children's Services or Lead a CCG?

Are you an **Elected Member?**

Do you Lead Corporate Parenting or Children's Mental Health?

Are you working well together?

As part of its national programme of advocacy and research, The Mulberry Bush Organisation is building:

A Reflective Space for Public Sector Leaders from Health, Education & Social Care to share practice, challenges, and ideas and find peer-to-peer support.

In support of your crucial work responding to Government change, we are beginning an exploration with our Public Sector partners into:

- **Health & Wellbeing** Strategies - promoting good Outcomes for Vulnerable Children and Families
- **Integrated working** – deploying JSNAs to support **Looked After Children**
- **Innovation in Change** – Vision for Change (**CSC Reforms**); Future in Mind (Children's Mental Health); Children & Families Act (**SEND**)

The Mulberry Bush Organisation is an established sector-lead in:

- The education & rehabilitation of Looked After Children and their families
- Partnering corporate parents, Mental Health Services and Education
- Resilience & Reflective Practice - building effectiveness in Teams & Organisations
